

SERIES 37

ROCKWORTH[®]
Office Systems Furniture

DESIGN STORY

Elegant design and refined details are the outstanding features of Series 37 executive line. A series conceived to create an environment where style and professionalism go hand in hand with image and performance. Series 37, welcoming and comfortable, is enhanced by the warm tone and natural luminosity of wood veneers for a modern, yet timeless effect.

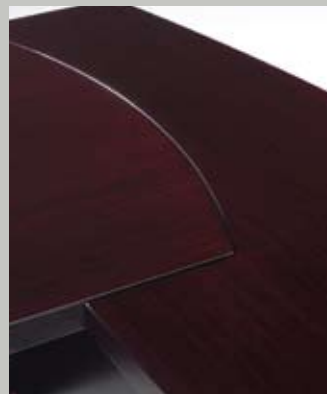

SPECIAL DETAIL

The look of Series 37 is enhanced by the use of 38mm thickness desktop. This gives the desk an unusually substantial feel, and increases its strength.

The multiple treatment process of the veneer surfaces provides greater protection against the everyday knocks of life in the office.

Every component and every assembly is engineered for maximum flexibility, strength and practicality with an excellent price-performance ratio and which is in compliance with the latest safety standards.

Series 37 carries a 3-year warranty, and each piece boasts flexible, modular construction, full-extension drawer suspension, cable management, standard locking mechanisms, and specially formulated polyurethane finish.

PRODUCT SPECIFICATION

In all areas of business, work patterns are evolving. Series 37 executive line offers elegant in design, with a high level of quality, image, functionality and comfort in creating a captivating environment. The simplicity of the series allows for an array of configuration to be created. Every aspect of modularity, space usage, cable management and assembly has been thought through, to bring you a superior furniture range.

Series 37 is represented in five wood veneer options : white oak, stained beech, stained rosewood, stained walnut and stained red cherry.

Modular meeting and conference table with linear connecting elements are available to provide for a matrix of configuration. A choice of modular storages completes the Series 37 executive line of furniture.
