## Sophisticated modernity

A stylish modern collection of executive systems to establish the executive as the pivot point of the management process.

## Workspace environment for both individual and teamwork at maximum flexibility

The Pivot Point concept illustrates the flexibility of altering the workspace environment for individual work or teamwork. Access to information and documents is always within easy reach of the executive.

Designed to express sophisticated modernity. It balances the use of metals for strength with the warmth of wood veneer.

Power & data cable management is by a vertical guide in black or silver. Horizontal docks under the desk facilitate easy connections.

Perforated aluminium modesty panel extrude a touch of the ultramodern. Cold rolled steel support legs in silver or graphite color with height adjustable. Desk extension unit can be fixed to desk with hidden brackets to ensure stability.

Versatile conference facility: choice of shape & size to suit room dimension; choice of wood veneers to create desired ambience ; choice of add horizontal & "invisible" power docks for electrical access.
